Sixty by the sea

The "60 by the Sea" club was established at the initiative of the neighborhood's residents, with the aim of serving as an active leisure center for independent senior citizens living in western Herzliya.

The club operates on Sundays-Thursdays from 08:00 until the evening

In addition to all the regular activities, trips, lectures, vacations and parties are held.

For any question or request you are welcome to contact Odelia at: 09-9778804, or by email:

60alhayam@gmail.com

West Herzliya Conservatory

Music knows how to calm, excite, connect us to our deepest places, make us happy, and remind us to breathe. Music education knows how to develop creativity, strive for excellence, empower and improve self-confidence and develop stage skills. Whether your children dream of conquering the stages, or whether they are interested in playing, or just singing in the shower, we have a warm, personal and nurturing place for them.

The conservatory, which was located for years in Smadar Middle School, has moved to its new and upgraded location at Teo.

The curriculum is customized to each boy and girl according to their needs, abilities and aspirations in the field of music.

We would love to meet you!

How It Works:

It is important to us that every boy and girl set out on their musical journey, adjusted specifically for them. Therefore, after a first consultation session, we will match the student with an instrument and teacher, and we will put together a personal plan based on ability and skills. Music lessons are conducted individually by professional and experienced teachers.

Our study tracks include: string instruments, wind instruments, percussion, voice development, guitar and bass guitar, piano, production and electronic music.

Café Nahat

The old café Nahat landed from Tel Aviv right at Teo and is happy to serve you a cup of fresh coffee, that was roasted that day and served to you with love. Along with coffee, you can also enjoy a sandwich or fresh pastry.

And if you are at all interested in a glass of quality wine, at the end of the day, after or before a show or lecture, we will be happy to entertain you. You are welcome to sit alone with your laptop, or for an intimate meeting in a quiet and relaxed setting. The cafe is located on the entrance floor to Teo, overlooking the patio from one side and the sea from the other side.
